

User Manual:

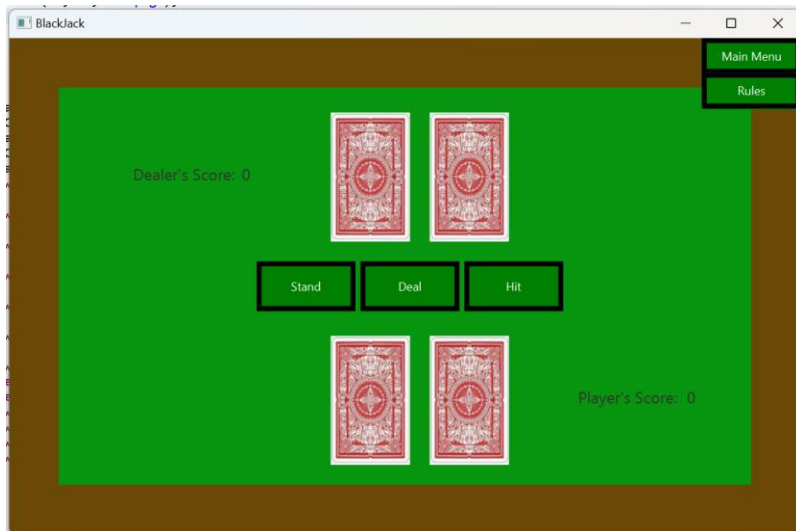

This is a user manual explaining how to run and use the program.

After running the main.java file you will be greeted with this main menu:

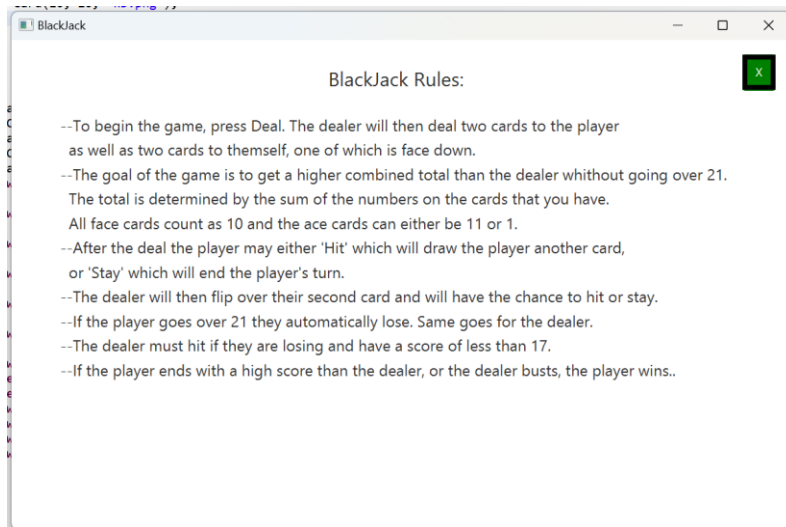

After deciding which game to play, you only need to click the play button.

For example, if you press the Play Blackjack button, you will move to the blackjack playing screen:

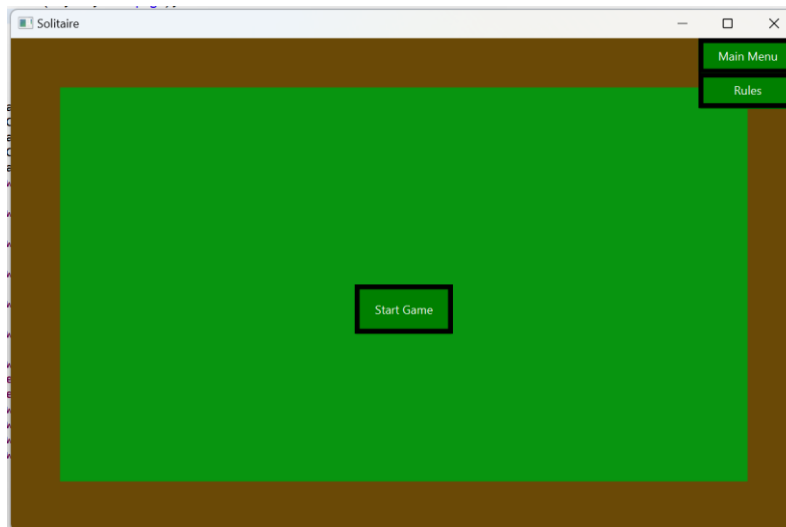

To learn how to play, you will need to press the Rules button in the top right, which will describe the rules of the game and how to play:

If you would like to return to the main menu you need to press the Main Menu button in the top right.

If you press the Play Solitaire button, you will be greeted by the Solitaire game screen:

The Solitaire screen has a very similar layout to the BlackJack screen and contains the same rules and main menu buttons.
